

SAFETY MANAGEMENT SYSTEM

The Safety Management System (SMS) program was created with one thing in mind - to find the most effective and efficient way to make your facility not only OSHA compliant but to also help build a healthy safety culture.

According to BCSPP, the average cumulative salary for a safety professional is **\$75,000 - \$200,000**. Let us do all the work for you. An SMS annual agreement will save you a lot of money and time.
